USMEUS - DANISH DESIGN

About USMEUS

Usmeus is a Danish design brand with designs from designer Lene Schødt.

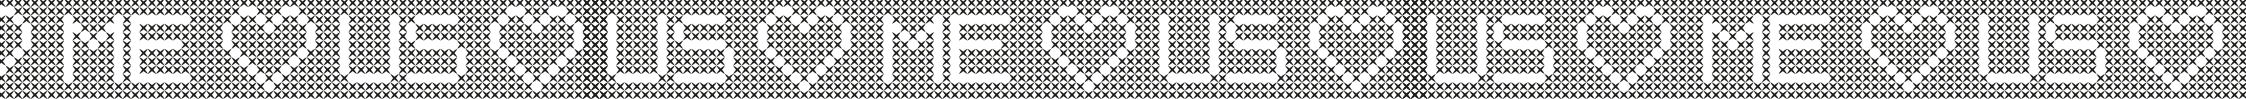

Even though UsMeUs offer an assortment of singular designs, they all share a common DNA. Our aim is that our design will make everyday life better and people happier. More specifically, we want our products to stand out from similar products that already exist on the market.

We love long lasting design! That is to say, those designs you would be a proud owner of for years. However, we cannot restrain ourselves from spicing it up and create a twist that makes room for the innovative, quirky or distinctive.

To us, designs develop from a deficiency or need. Following this line of thought, our designs often contain features that have a very practical and unpretentious function.

At UsMeUs we strive to reach a synthesis of the aesthetic and the practical.

Welcome to UsMeUs – best regards, Lene Schødt ♥

BAEKKE JEWELRY

About BAEKKE by UsMeUs

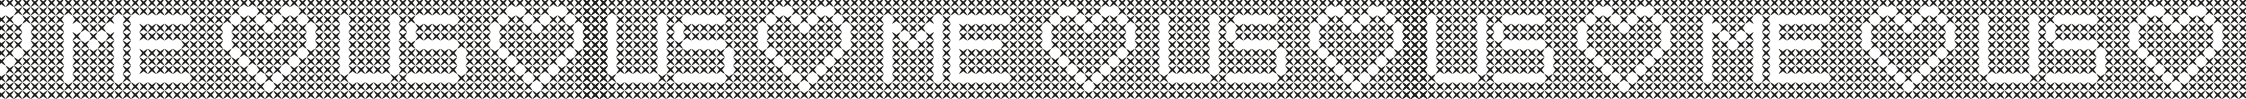

The intention of the jewelry concept BAEKKE is a basic piece of jewelry you can have for many years – perhaps even for life. With the beads, you can decorate the jewelry and change its appearance as required, according to mood and outfit. You can buy more beads in other colors when you want.

The name BAEKKE comes from the Danish saying “Many little brooks (baekke) makes a large stream”.

- This jewelry is made of brass, silver or goldplated brass (3 micron 18 Karat gold, which is recommended of danish goldsmiths).
- The beads are made of a durable, reusable plastic to ensure that they can be snapped on and off the bracelet over and over again.

BAEKKE is Danish design – with a twist. We love to mix materials and create flexibility and basis for many years of use.

One piece of jewelry - endless expressions!

BRACELETS

BAEKKE bracelet Small / Medium / Large

- High Polished Brass - NO nickel
- Sterling Silver 925

Bracelet without beads (bought separately).

Size small – perimeter 13 cm + opening. We recommend 1-7 beads on the bracelet.

Size Medium – perimeter 15 cm + opening. We recommend 1-9 beads on the bracelet.

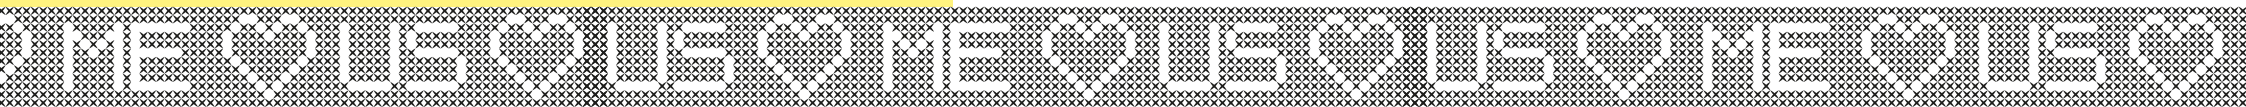

Size Large – perimeter 17 cm + opening. We recommend 1-11 beads on the bracelet.

MES AFFAIRES LEATHER

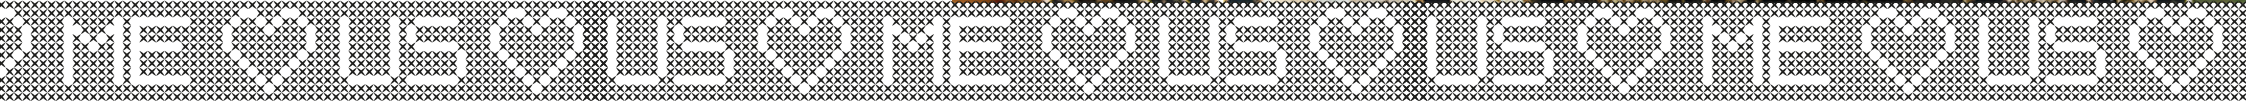

MES AFFAIRES by UsMeUs - the thoughts behind

The MES AFFAIRES series is a Danish design - leather bags and purses produced in Denmark, based on the motto of simplicity, usability and material utilization.

This means that MES AFFAIRES products:

- are processed as little as possible so that they are simple to both produce and use
- is based on the product's actual function and challenges thereby
- utilizes the skin so that there is as little residue left as possible. This means that the appearance and structure of the products can vary, even if they come from the same skin, but also that no two are alike

MES AFFAIRES - for all the stuff you need ... to find!

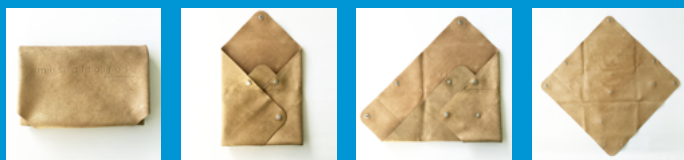

CLUTCHES

Leather clutch

Approximately 23 x 15 cm (9,05 x 5,9 inches)

Mes affaires clutch – a small purse for all the things you need... to find!

The clutch can – if necessary – fold out into a flat piece of leather, so you'll get a complete overview of everything that women (need to) bring with us!

KEYCHAIN PURSES

Everything is utilized

Small leather coin purse, for your keyring

Approximately 3 x 4 cm

Mes affaires purse – a very small purse to attach to your keyring, so you always have money on you – even when you have forgotten your wallet!

The purse can hold up to three 2-euros and quite a lot of notes. So you always have money for the shopping cart, the bus/train, the parking meter or a stick of butter. Also usable for a blisterpacked pill you always need to have on you - or a battery for a hearing aid or your carkeys.

UPCYCLED by USMEUS

UPCYCKLED by UsMeUs is a new line of products made from recycled or surplus materials, i.e. sustainable use of the resources we already have.

More products are on the way in this category - next up will be a tote bag in fabric residues from a workwear manufacturer. The tote bag is of course designed by UsMeUs from practical, aesthetic, circular principles - and always with a twist :-)

JEWELRY TRAYS

FILL IT jewelry trays

FILL IT is produced in Denmark in beautiful and sustainable recycling foam. The foam is always grey as base colour, but the coloured dots may differ from time to time, depending on which foam is being reused.

This little tray is perfect for small things, so you know where they are, when not in use. E.g. a fingerring, you don't sleep with – or your headset.

You can of course also use it for your collection of BAEKKE beads

The FILL IT jewelry trays comes in 4 sizes and can be used as a lid on diam 120 and so on.

GRAPHICS by USMEUS

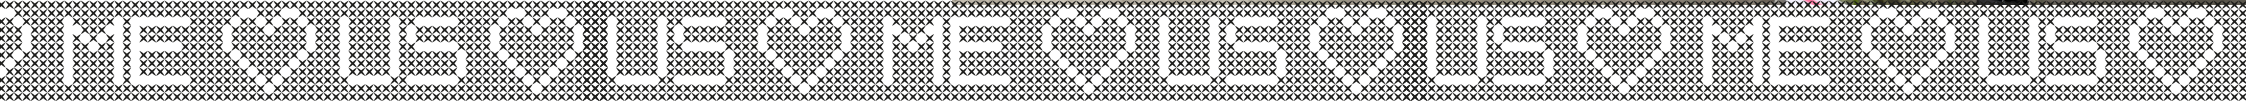

Graphic design and colours means a lot to me and I take great pleasure in implementing it in all that I do.

Paper also fascinates me, which is why, I always choose the the best paper for my products - gives me great joy to work with good materials, and then I know, it will be cherished for years and years.

My graphic designs often comes with the need for a kind of user interaction.

E.g. the "Cross my heart", where you can cross in your own favourite quote, saying ord infographic - like cross stitch embroidery - just with a pen ;-)

I like to play with crosses, dots or squares and make objects out of them - and then simplify it as much as possible, so there is a thin line between reality and abstraction.

GRAPHIC POSTERS / CARDS

“May contain traces of animals”

Let a framed A3 “Cheetah” chase a framed “Mouse” in the A5 or let the animals can hang together in peace and tolerance or mixed with other graphic posters.

“May contain traces of animals” is a graphic series where 2 colors and completely old school rasters have been worked on, so that the animal itself only appears as a color difference from the background.

The series is printed on Igepa photo paper, 250 g at Plotteriet in Aarhus.

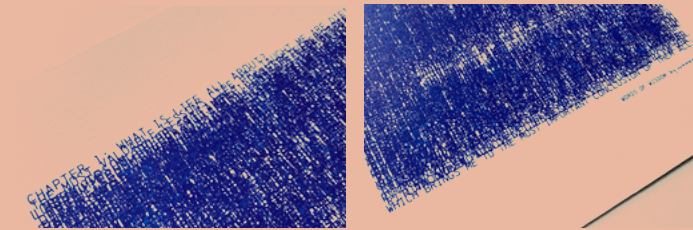

GRAPHIC POSTERS / CARDS

“Words of Wisdom”

The series “Words of wisdom” is graphic art, where only the first and last line can be read ... the rest is up for interpretation ;-) One thing I do now is, that “Love is Love” - which one of the motives shows :-)

Use posters and cards from the different series to make a beautiful picture wall. Or give them as a personal gift :-)

The series is printed on Hahnemühle 915 300 g paper at Plotteriet in Aarhus.

DESIGN DECLARATION

Through innovation of function, form and material composition, designs from USMEUS aim to make your days happier, our surroundings greener and our world better. From practical, aesthetic, circular principles and thinking, USMEUS create distinctive and useful classics with a twist.

We select and make use of longlasting and reuseable materials that can be easily taken apart and upcycled separately, in order to achieve the same or higher utility value. Recycled and surplus materials are included where feasible and appropriate. Selected designs support local, national and international organisations and thereby also incorporate social responsibility.

USMEUS' designs fulfill one or more of the following sustainable principles:

- Use of materials that can last for a very long time - maybe even several generations (such as leather).
- Use of materials that can be reused and upcycled to a considerable degree, i.e. the possibility of the product becoming a new product with the same or higher value.
- Use of recycled or surplus materials, i.e. sustainable use of the resources we already have.
- Composition of materials in designs in ways which they can easily be taken apart and reused separately.
- Social sustainability – supporting organisations to help locally, nationally and internationally.
